Subject Index to Volume 18

(E) = Editorial, (LE) = Letters to the Editor

- Abstracts, American Society for Clinical Nutrition,**
6th annual meeting, 302
- Adipose tissue levels of alpha-tocopherol and linoleic acid after fat ingestion,** 243
- Adolescents, red cell values in,** 286
- Aging and vitamin B₁₂ absorption,** 176
- Alcoholic fatty liver, influences of dietary fat on,** 350
- Alcoholism, renal excretion of lactate and magnesium in,** 231
- Alpha-tocopherol depletion after ingestion of polyunsaturated fats,** 243
- American Society for Clinical Nutrition**
abstracts of papers, 6th annual meeting, 302
Norman Jolliffe medical student fellowship awards, 316
presidential address, 469
program of 6th annual meeting, 301
- Amino acids**
analysis of content in sweat, 373
influence on nitrogen retention, 100
- Anemia**
due to vitamin B₁₂ deficiency after treatment of tropical sprue, 110
megaloblastic, relapse following initial response to folic acid therapy, 110
nutritional, and siderosis, 249
tropical normocytic, pathogenesis and therapy of, 116
vitamin E-responsive macrocytic, in protein-calorie malnutrition, 362
- Anthelmintic therapy for tropical normocytic anemia,** 116
- Arm sweat, nitrogen, calcium and iodine excretion in,** 443
- ASCN News,** 301, 469
- Ascorbic acid levels during menstruation,** 256
- Ashkenazim, studies of factors affecting blood lipids in,** 134
- Atlantic City meetings, report on,** 473
- Beef fat**
see Fat
- Bile acids and steroids,** 46
- Blood**
lipid levels in Yeminite Jews, 134
serum cholesterol, influence of diet and physical training on, 79
serum lipid patterns during infancy and childhood, 155
whole, folic acid-cofactor forms in, 27
- Body composition and conformation, longitudinal study in teen-age population,** 325
- Body fatness and serum cholesterol, epidemiologic study of,** 397
- Body potassium content in obese subjects during prolonged fasting,** 278
- Body sweat, nitrogen, calcium and iodine excretion in,** 443
- Book reviews**
Current Research on Sleep and Dreams. PHS Publication No. 1389, 319
Hasker, R. R. and Mitchell, H. Cookbook for Low Sodium Diet, 318
Neu, J. Chemical, Medical and Pharmaceutical Books Printed Before 1800, 154
The Chemistry of Wheat Starch and Gluten. The Chemical Rubber Co., 318
Vital and Health Statistics. Coronary Heart Disease in Adults, United States, 1960-1962. PHS Publication No. 1000, Series 11, No. 10, 319
Wolstenholme, G.E.W. and O'Connor, M. (ed.) Caries-Resistant Teeth, Ciba Foundation Symposium, 318
- Butter as dietary fat, cholic acid formulation in subjects on standardized diet with,** 46
- Calcium**
cholesterol and phospholipid levels in starved rabbits, 197
excretion in arm and total body sweat, 443
- Caloric intake, effect on serum proteins in malnourished infants,** 11, 16
- Canning, effect on food folate,** 452
- Carbohydrates**
dietary
and serum cholesterol levels, 149, 237
lipid response of postmenopausal women to, 86
effects on serum lipids in hypertriglyceridemia, 261
- Carotenoid levels, relation to serum cholesterol levels,** 134
- Celiac disease, correlation between schizophrenia and,** 7
- Ceylonese adults, malnutrition among,** 38
- Child feeding practices in Uruguay,** 203
- Childhood**
blood serum lipid patterns during, 155
thiamine deficiency in Northern Thailand, 275
- Children**
effect of meal frequency on body weight, height and skinfold thickness of, 358
protein intake of, in Uruguay, 203
thiamine deficiency in, 275

Cholesterol

- free and total, in human serum (LE), 229
- influence of diet and physical activity on, 79
- levels in starved rabbits, 197
- serum,
 - and body fatness, epidemiologic study of, 397
 - and dietary carbohydrates, 149, 237
 - effect of calcium in maintaining normal levels during starvation, 197
 - effect of pectin dose on, 437
 - influence of diet and physical training on, 79
 - relationship to serum carotenoid levels, 134

Cholestyramine, effect on fecal excretion of ingested radioiodinated lipids, 343

Cholic acid formulation and turnover following manipulation of dietary fat, 46

Chyluria, relationship of dietary lipid to urinary fat excretion in, 20

College men, effect of stress on protein metabolism of, 321

Constant diets, content of, 339

Cooking, effect on vitamin B₁₂ content of food, 176

Copper concentrations in hair of Iranian villagers, 294

Corn oil

- cholic acid formulation in subjects on standardized diet with, 46
- effect on alpha-tocopherol and linoleic acid levels, 243

Coronary heart disease
see Heart disease

C rations, iron and tin content after storage, 1

Davidson, Charles S., recipient of 1966 McCollum Award, 471

Dial-A-Dietitian, community nutrition education program, 60

Diet

- and physical activity
 - influence on blood serum cholesterol, 79
 - in teen-age population, 325
 - in treatment of rheumatic disease, 68

Dietary carbohydrates
see Carbohydrates

Dietary fat
see Fat

Dietary fructose and lipid metabolism, 369

Dietary lipids, and urinary fat excretion in chyluria, 20

Dietary protein source, effect on serum proteins in malnourished infants, 16

Dietary requirements, estimates of minimal daily vitamin B₁₂, 176

Dietary studies

- of civilians in Uruguay, 203
- of men in urban and rural areas of Puerto Rico, 169

Diets, comparison between analyzed and calculated values of, 339

Eating practices of teen-age population, 325

Editorial

Crisis in communication—help from nutrition, 77
Egyptians, male, sexual development and growth of, 421

Emotions, role in protein metabolism, 321

Environment, effect on carotene and cholesterol metabolism, 134

Estrogens, iron and ascorbic acid levels during menstruation, 256

Fasting, potassium metabolism during, 278

Fat

- absorption, effect of cholestyramine on, 343
- beef, effect on alpha-tocopherol and linoleic acid levels, 243

dietary

- and alcoholic fatty liver, 350
- cholic acid formulation and turnover following manipulation of, 46
- effect on alpha-tocopherol and linoleic acid levels, 243
- influences on alcoholic fatty liver, 350
- low, effect on serum cholesterol, 237
- emulsions, serum triglyceride concentrations following ingestion, 165
- excretion and dietary lipid in chyluria, 20

Fats, polyunsaturated, alpha-tocopherol and linoleic acid depletion after feeding of, 243

Fatty acids, effect of cholestyramine on, 343

Fatty liver, alcoholic, and dietary fat, 350

Fecal excretion

- of ingested radioiodinated lipids, effect of cholestyramine on, 343
- of iron and tin by men fed stored canned foods, 1

Feeding practices in Uruguay, 203

Fish protein concentrates in kwashiorkor, 34

Folate

- labile, of milk 452
- plasma, and vitamin B₁₂ activity in tropical sprue, 27

Folic acid

- activity in milk, 452
- and vitamin B₁₂ therapy for tropical sprue, 110
- cofactors in plasma and whole blood of tropical sprue patients, 27
- in macrocytic anemia, 362
- initial response to, followed by relapse of megaloblastic anemia, 110

Food

- and activity, influence on body composition of teenagers, 325
- composition and soil factors, 390
- composition tables, analysis of constant diets using, 339
- consumption pattern in Uruguay, 203
- effect of processing methods on folate content of, 452
- intake, effect on body weight, height and skinfold thickness in children, 358

Food

- supplies in United States, changes in retail market (LE), 75
- teen-age view on body conformation and, 325
- Foods, stored canned, fecal excretion of iron and tin by men fed, 1
- Foodstuff, natural, assimilation of vitamin B₁₂ from, 176
- Formiminoglutamic acid excretion in infants with protein malnutrition, 426
- Fructose, dietary, and lipid metabolism, 369

Glucose

- serum lipid levels in hyperlipemic patients following feeding of, 261
- influence on serum lipid levels in men, pre- and post-menopausal women, 369
- Greenville County, South Carolina, nutritional status of Negro infants in, 407
- Growth and sexual development of male Egyptians, 421

Hair, zinc and copper concentrations in, 294

- Heart disease, coronary
 - relation of nutrition to, 169
 - role of refined sugar in, 169
- Heating, effect on food folate, 452
- Height-weight proportion, effect of meal frequency on, 358
- Hematologic studies in kwashiorkor, 413
- Hospital admissions for schizophrenia during World War II, relation of wheat consumption to, 7
- Hyperlipemia, serum lipid changes, following feeding of starch, sucrose and glucose, 261
- Hypertriglyceridemia, effects of carbohydrates on serum lipids in, 261

Infants, malnourished, effect of protein and calorie intake on serum proteins of, 11, 16

- Infancy, blood serum lipid patterns during, 155
- Iodine excretion in arm and total body sweat, 443
- Iranian villagers, zinc and copper concentrations in hair of, 294

Iron

- absorption and pyridoxine intake, 1
- content of sweat in normal adults, 270
- excretion by men fed stored canned foods, 1
- in macrocytic anemia, 362
- levels during menstruation, 256
- supplemental, for tropical normocytic anemia, 116
- Isoleucine, influence of variable quantities on nitrogen retention, 91

Jews, Yeminite, factors affecting blood lipid levels in, 134

- Jolliffe, Norman, medical student fellowship awards, 316

Kwashiorkor

- fish protein concentrates in, 34
- hematologic studies in, 413
- serum vitamin A in, 105

L. casei assay of plasma and whole blood folate in tropical sprue, 27

- Laboratory analysis of constant diets, 339
- Lactate, renal excretion in alcoholism, 231
- Letters to the Editor
 - Grande, F., Anderson, J. T. and Keys, A.: Changes in retail market food supplies in the United States, 75
 - Keys, A.: Free and total cholesterol values in human serum, 229
 - McLaren, D. S.: Nutritional status of people in isolated areas of Puerto Rico, 467
- Linoleic acid depletion after ingestion of polyunsaturated fats, 243
- Lipid metabolism and dietary fructose, 369
- Lipid pattern in chyluria, 20
- Lipid response of postmenopausal women to dietary carbohydrates, 86

Lipids

- changes in, following feeding of starch, sucrose and glucose, 261
- dietary, and urinary fat excretion in chyluria
- factors affecting, in Yeminite Jews, 134
- radioiodinated, effect of cholestyramine on fecal excretion of, 343
- serum
 - effects of carbohydrates on, in hyperlipemia and hypertriglyceridemia, 261
 - effect of forced-fed macronutrients on, 197
 - influence of fructose and glucose on, 369
 - patterns during infancy and childhood, 155
- Liver, alcoholic fatty, influences of dietary fat on, 350
- Lysine, influence on nitrogen retention, 91

Macronutrients, forced-fed, effect on serum lipid levels of starved animals, 197

- Magnesium, renal excretion in alcoholism, 231
- Malnutrition
 - see also Protein-calorie malnutrition
 - among Ceylonese adults, 38
 - infantile, 11, 16
 - in Northern Thailand, 379
 - serum proteins in, 11
- Maturation, delayed, in male Egyptians, 421
- McCollum award, Charles S. Davidson 1966 recipient, 471
- Meal frequency in school children, effect of, 358
- Menstruation, estrogen, iron and ascorbic acid levels during, 256
- Methionine, influence on nitrogen retention, 100
- Milk
 - labile folate of, 452

- Milk protein**
effect on serum proteins, 11
versus fish protein in kwashiorkor, 34
- Mineral mixtures, forced-fed, effect on serum lipid levels of starved animals, 197**
- Monotriglycerides, effect on serum triglyceride concentration, 165**
- Negro infants, nutrition status of, 407**
- Nitrogen**
concentration in hair of Iranian villagers, 294
excretion in arm and total body sweat, 443
retention
influence of lysine, tryptophan and isoleucine on, 91
influence of variable quantities of methionine on, 100
- Nutrition**
education program, dial-a-dietian, 60
help in crisis in communication (E), 77
relation to coronary heart disease, 169
requirements of man, with special reference to riboflavin, 458
- Nutrition News, 473**
- Nutritional status**
of civilian population in Uruguay, assessment of, 203
of Negro infants in Greenville County, South Carolina, 407
of people in isolated areas of Puerto Rico (LE), 467
- Obesity, potassium levels during prolonged fasting for treatment of, 278**
- Overnutrition in Uruguay, 203**
- Pectin dose, effect on serum cholesterol levels, 437**
- Phospholipid levels, effect of calcium in maintaining normal levels during acute starvation, 197**
- Physical activity of teen-agers, 325**
- Physical training and diet, 79, 325**
- Plasma folate and vitamin B₁₂ activity in tropical sprue, 27**
- Postmenopausal women, lipid response to dietary carbohydrates, 86**
- Potassium metabolism during fasting, 278**
- Pregnancy, nutritional anemia early in, in population with high incidence of siderosis, 249**
- Presidential address, American Society for Clinical Nutrition, 469**
- Protein-calorie malnutrition**
see also Kwashiorkor
Malnutrition
infants with, 426
in Northern Thailand, 379
- urocanic acid and formimino-glutamic acid excretion in vitamin E-responsive macrocytic anemia in, 362**
- Protein**
intake
effect on serum proteins in malnourished infants, 11, 16
of children in Uruguay, 203
metabolism of young men during university examinations, 321
milk, effect on serum proteins, 11
source, effect on serum proteins, 16
supplementation in tropical normocytic anemia, 116
serum, in malnutrition, 11
- Protozoological assay of vitamin B₆ deficiency, 123**
- Puerto Rico**
dietary study of men in urban and rural areas of, 169
nutritional status of people in isolated areas of (LE), 467
- Pyridoxine**
intake and iron absorption, 1
labeled, studies on metabolism in man, 185
- Radiocalcium absorption at different times of day, 449**
- Red cell values in adolescents, 286**
- Renal excretion of lactate and magnesium in alcoholism, 231**
- Retail market food supplies, changes in United States (LE), 75**
- Rheumatic disease, diet in treatment of, 68**
- Riboflavin requirements of man, 458**
- Safflower oil, effect on alpha-tocopherol and linoleic acid levels, 243**

Subject Index to Volume 19

(E) = Editorial; (LE) = Letters to the Editor

- Acetyl-L-tryptophan**, urinary excretion of indican following administration of, 105
- Activity and food** in teen-agers, effect on body build, 422
- Adolescents**, vitamin to creatinine ratios in urine of, 335
- Adrenal cortical hormone** production, effect of dietary cholesterol on, 232
- Albumin** loss into intestine in liver cirrhosis, 219
- Alcohol** and serum triglyceride levels, 255
- Alcoholics**, pyridoxine deficiency and tryptophan metabolism in, 379
- Alimentary lipemia** and ethanol, 255
- American Society for Clinical Nutrition**, president's statement, 295
- Amino acids**
 effect on nitrogen balance in preadolescent girls, 407
 levels in preadolescent girls, effect of protein intake on, 390
 plasma, in full-term infants, 99
- Amino nitrogen**, serum, effects of meal composition on, 329
- Anemia**
 and pica in Turkey, 125
 iron deficiency, and megaloblastic dysplasias associated with low folate diet and iron therapy, 27
 megaloblastic, in an adult vegan, 260
 pernicious, assay of autohumoral antibody in serum from patients with, 10
- Anemias, nutritional**—WHO research program, 63
- Anguilla**, West Indies, growth of infants and preschool children in, 37
- Anthropometric** evaluation of body build of teen-agers, 422
- Antibody**, autohumoral, in pernicious anemia, 10
- Antipyradoxine** effects of D-penicillamine in schizophrenic men, 307
- Ascorbic acid**
 concentrations in cholera, 384
 metabolism in man, 371
- Atherosclerotic heart disease**, mortality from, related to food consumption, 361
- Bacteria**, intestinal, folate synthesis by, 237
- Barrio Naranjo**, Moca, Puerto Rico, nutrition survey of, 269
- Bean diets** and carbon dioxide concentration in flatus, 120
- Blood enzyme activities** in male Egyptians with retarded growth and sexual development, 415
- Body build** of teen-age population evaluated anthropometrically, 422
- Body composition**, gross, longitudinal study of, 422
- Body fat distribution** in teen-agers, 422
- Body water**, total, in obesity, 77
- Book reviews**
 Mental Health of Children—The Child Program of the National Institute of Mental Health. PHS Publication No. 1396, 74
 The Essentials for Patients' Library, 293
 The Food Protection and Toxicology Center Progress Report for Calendar Year 1965, UCLA, 146
 Vital and Health Statistics. Blood Glucose Levels in Adults, United States, 1960–1962. PHS Publication No. 1000, Series 11, No. 18, 445
 Vital and Health Statistics. Hypertension and Hypertensive Heart Disease in Adults, United States, 1960–1962. PHS Publication No. 1000, Series 11, No. 13, 293
 West, B. B., Wood, L. and Harger, V. F. Food Service in Institutions, 75
- Bread and sucrose**
 effect of interchanging on glucose tolerance curve, 59
 effect of interchanging on serum cholesterol, 46
- Calcium metabolism** in man, effect of magnesium on, 296
- Carbohydrate-induced hyperlipidemia**, clinical and laboratory characteristics, 84
- Carbohydrates**
 dietary
 influence on glucose tolerance, 59
 influence on serum cholesterol, 46
 effect of nature on serum cholesterol levels, 46, 59
- Carbon dioxide concentration** in flatus, effect of bean diets on, 120
- Children**
 influence of dietary fat on fatty acid composition of serum lipid fractions in, 194
 malnourished, nitrogen retention and clinical picture in, 352
 preadolescent
 effect of protein intake on amino acid levels, 390
 effect of dietary protein and amino acids on nitrogen balance in, 407
 nitrogen intake and thiamine utilization in, 398
 vitamin to creatinine ratios in urine of, 335
 preschool, growth in West Indies, 37
- Cholera**, nutritional studies in, 384
- Cholesterol**, serum
 see Serum cholesterol

- Cholesterol-lowering diet, effect on adrenal cortical hormone production, 232
- Cirrhosis of liver
see Liver cirrhosis
- Coffee and tea consumption in Canada and United States (LE), 370
- Creatinine to vitamin ratios, variability in adolescents, 335
- D**
- Diabetes and obesity, 158
- Dialysis, periodic, dietary plan for patients undergoing, 163
- Diet
cholesterol-lowering, effect on adrenal cortical hormone production, 232
fatty acid changes in relation to, 194
semisynthetic, urinary excretion of indican following ingestion of, 113
therapy, dynamics of, 357
- Dietary appraisal, problems in processing dietary data, 1
- Dietary carbohydrates
influence on glucose tolerance, 59
influence on serum cholesterol, 46
- Dietary care of patient with chronic oliguria, 163
- Dietary cholesterol and adrenal cortical hormone production, 232
- Dietary data, problems in processing, 1
- Dietary factors and serum cholesterol, 46, 59
- Dietary fat, influence upon serum lipid fractions, 194
- Dietary iron, effect on iron absorption, 132
- Dietary lipids, serum cholesterol response to changes in, 175
- Dietary management of oliguric patients, 163
- Dietary nitrogen utilization in young men fed solid and liquid diets, 227
- Dietary protein
and amino acids, effect on nitrogen balance in pre-adolescent girls, 407
effect on amino acid levels and excretion in preadolescent girls, 390
- Dietary tryptophan and urinary indican excretion, 113
- Diethylpropion and weight loss, 158
- Diets, solid and liquid, effect on dietary nitrogen utilization in young men, 227
- Diurnal activity, reversal of, effects on protein metabolism in young men, 313
- E**
- Egyptian male subjects, zinc levels and blood enzyme activities in, with retarded growth and sexual development, 15
- Erythrocyte transketolase studies in cholera, 384
- Ethanol and alimentary lipemia, 255
- F**
- Fasting, effects on mineral and nitrogen balances in obese patients, 320
- Fat distribution in teen-agers, 422
- Fat-induced hyperlipidemia, clinical and laboratory characteristics of, 84
- Fatty acid changes in relation to diet, 194
- Fatty acid diet, high polyunsaturated, and low plasma vitamin E levels associated with syndrome in premature infants, 147
- Fatty acids, nonesterified
and serum triglycerides in kwashiorkor, 205
influence of meal composition on serum levels of, 329
- Fatty liver, pathogenesis of (LE), 291
- Flatus, carbon dioxide concentration in, effect of bean diets on, 120
- Folate**
activity in cholera, 384
and vitamin B₁₂ metabolism, 187
deficiency secondary to iron deficiency, 27
metabolism in weanling rats fed maize diets, 187
synthesis by intestinal bacteria, 237
- Folic acid**
activity in plasma, 342
deficiency secondary to iron deficiency, remission following treatment, 27
- Food**
and activity in teen-agers associated with body build, 422
consumption and mortality from heart disease, 361
- G**
- Gastrointestinal tract, protein loss into, in liver cirrhosis, 219
- Glucose**
serum, influence of meal composition on, 329
tolerance, influence of dietary carbohydrates on, 59
tolerance test, variability in pregnant and nonpregnant women, 345
- Growth**
of West Indian infants and preschool children, 37
rate
general, relation to nail growth in pregnant women, 436
of West Indian children, 37
retarded, zinc levels and blood enzyme activities in male Egyptians with, 415
- H**
- Heart disease, mortality and relation to food consumption, 361
- Hormones, adrenal cortical, effect of cholesterol-lowering diet on production, 232
- Hyperlipidemia, clinical and laboratory characteristics of, 84
- Hypertriglyceridemia, treatment of, 84
- Hypogonadal dwarfism in male Egyptians, 415
- Indican excretion**
and dietary tryptophan, 113
following ingestion of indole, 105
- Indole, urinary excretion of indican following administration of, 105
- Infants**
full-term, plasma amino acids in, 99
growth in West Indies, 37

Infants

- influence of dietary fat on serum lipid fractions in, 194
- premature, effects of low plasma vitamin E levels and high polyunsaturated fatty acid diet on, 147

Infection

- and malnutrition, 384
- influence of nutritional status on susceptibility to, 384

Intestinal bacteria, folate synthesis by, 237**Intestine, albumin and protein loss into, in liver cirrhosis, 219****Intrinsic factor antibody, assay of, 10****Iron**

- absorption, effect of dietary iron on, 132
- and folic acid deficiency, remission following iron therapy and low folic acid diet, 27
- dietary, effect on iron absorption, 132
- therapy for folic acid and iron deficiency, 27
- Isocaloric diets, suboptimal, effects on nitrogen and mineral balances in obese patients, 320

Kwashiorkor

- serum triglycerides and nonesterified fatty acids in, 205
- vitamin A deficiency in, 182

Letters to the Editor

- Burns, L., Little, J. A., and Shanoff, H. M.: Consumption of coffee and tea in Canada and United States, 370
- Kinsella, J. E.: Pathogenesis of fatty liver—a postulated mechanism, 291
- Walker, A. R. P.: Factors affecting interpretation of clinical data, 72

Lipemia, alimentary, and ethanol, 255**Lipids, dietary**

- see Dietary lipids

Liver

- cirrhosis, protein and albumin loss into gastrointestinal tract in, 219
- fat in infantile malnutrition, origin of, 170
- fatty, pathogenesis of (LE), 291
- folate and vitamin B₁₂ concentrations during protein depletion and repletion, 187

Magnesium and calcium metabolism in man, 296**Maize diet, folate metabolism in rats given, 187****Malnourished children, clinical picture and nitrogen retention in, 352****Malnutrition**

- see also Kwashiorkor
- and infection, 384
- infantile, origin of liver fat in, 170

Meal composition, effect on serum components, 329**Megaloblastic anemia**

- see Anemia

Metabolic patterns in preadolescents, 390, 398**Metabolite excretion in chronic alcoholics, 379****Mineral and nitrogen balances in obesity, 320****Mortality from atherosclerotic heart disease related to food consumption, 361****Muscle growth in teen-agers, 422****Nail growth in pregnant women, relation between rate and general growth rate, 436****Nevis, West Indies, growth of infants and preschool children in, 37****Nitrogen****balance**

- and dietary protein in preadolescent girls, 407
- in obesity, 320
- intake and thiamine utilization in preadolescent children, 398
- retention in malnourished children, 352
- serum amino, effect of meal composition on, 329
- utilization, dietary, in preadolescent children, 398

Nutrition News, 73**Nutrition**

- problems as part of total economy, 285
- research for the future, 440
- surveys, riboflavin assay for, 17

Nutritional anemias—WHO research program, 63**Nutritional levels, rapid evaluation of, community-screening project, 247****Nutritional management of patients undergoing periodic dialysis, 163****Nutritional status**

- influence on susceptibility to infection, 384
- of people in isolated areas of Puerto Rico, 269

Nutritional studies in cholera, 384**Obese nondiabetic subjects, double-blind study of phenethyldiguanide in weight control of, 223****Obesity**

- effects of fasting and refeeding on mineral and nitrogen balances in, 320
- in diabetes, 158
- in teen-agers, 422
- phenethyldiguanide in, 223
- total body water in, 77

Oliguria, chronic dietary care of patient with, 163**Paper chromatography in determining plasma amino acids in full-term infants, 99****D-Penicillamine, antipyridoxine effects in schizophrenic men, 307****Pernicious anemia**

- see Anemia

Phenethyldiguanide in obesity, 223**Phenformin in weight control studies, 223****Pica and anemia in Turkey, 125****Plasma**

- amino acids in full-term infants, 99
- folic acid conjugase in, 342

Plasma

pyridoxal-5-phosphate concentrations in chronic alcoholics, 379

tocopherol levels, new method for determining, 137

Preadolescent girls

amino acid levels in, on two levels of protein intake, 390

effects of dietary protein and amino acids on nitrogen balance of, 407

Preadolescents, metabolic patterns in, 390, 398

Pregnant women

relation of nail growth to general growth rate in, 436

variability of glucose tolerance test in, 345

Protein

depletion and repletion, folate and vitamin B₁₂ concentrations in liver and serum during, 187

intake in preadolescent girls, effect on amino acid levels, 390

loss into intestine in liver cirrhosis, 219

metabolism, effect of sleep on, 313

Puerto Rico, nutrition status of people in isolated areas of, 269

PUFA diet, high, effects on vitamin E requirements of premature infants, 147

Pyridoxine deficiency and tryptophan metabolism in chronic alcoholics, 379

Renal failure, dietary management of patients with, 163

Riboflavin

assay for clinical use and nutritional surveys, 17

to creatinine ratios, variability in adolescents, 335

Schizophrenia, antipyridoxine effects of D-penicillamine in, 307

Serum

amino acid levels in preadolescent girls on two levels of protein intake, 390

cholesterol

influence of dietary carbohydrates on, 46

response to changes in dietary lipids, 175

response to dietary lipid changes, 175

components, effect of meal composition on, 329

folate and concentrations during protein depletion and repletion, 187

lipid fractions, influence of dietary fat on, 194

triglyceride levels, effects of alcohol on, 255

and nonesterified fatty acids in kwashiorkor, 205

Sexual development, retarded, zinc levels and blood enzyme activities in male Egyptians with, 415

Skeletal differences in teen-agers, 422

Sleep, effect on protein metabolism, 313

St. Christopher, West Indies, growth of infants and preschool children in, 37

Sucrose and bread, effect of interchanging on serum cholesterol levels, 46

Tea and coffee consumption in Canada and United States (LE), 370

Teen-agers

anthropometric evaluation of body build of, 422

obesity in, 422

Thiamine

utilization in preadolescents in relation to nitrogen intake, 398

excretion in cholera, 384

to creatinine ratios, variability in adolescents, 335

Tocopherol levels, plasma, new method for determining, 137

Triglycerides, serum

see Serum triglycerides

Tropical sprue, folic acid conjugase levels in plasma of patients with, 342

Tryptophan metabolism in chronic alcoholics, 379

L-Tryptophan, urinary excretion of indican following administration of, 105, 113

Turkey, pica in, incidence and association with anemia, 125

Urinary excretion

of amino acids in preadolescent girls on two levels of protein intake, 390

of indican in man, 105, 113

of thiamine in preadolescent children, 398

Vegan, megaloblastic anemia in, 260

Vitamin to creatinine ratios, variability in adolescents, 335

Vitamin A deficiency in kwashiorkor, 183

Vitamin B₁₂

and folate metabolism, 187

combining site of intrinsic factor in pernicious anemia, 10

deficiency in an adult vegan, 260

levels in cholera, 384

metabolism in weanling rats given maize diet, 187

Vitamin E

low plasma, and high polyunsaturated fatty acid diet associated with syndrome in premature infants, 147

perspective on, 210

requirements in premature infants, effects of high PUFA diet on, 147

Weight

control, double-blind study of phenethylguanide in, 223

loss, effect of diethylpropion on, 158

Zinc levels in male Egyptians with retarded growth and sexual development, 415

Zirconyl gel, use in rapid assay method, 10

Observations on Urocanic Acid and Formiminoglutamic Acid Excretion in Infants with Protein Malnutrition	{ Isidore Spector Harold C. Falcke Yvonne Yoffe Jack Metz }	426
Effect of Pectin Dose on Serum Cholesterol Levels	{ Grant H. Palmer David G. Dixon }	437
Comparison of Nitrogen, Calcium and Iodine Excretion in Arm and Total Body Sweat	{ C. Frank Consolazio Le Roy O. Matoush Richard A. Nelson Gerhard J. Isaac John E. Canham }	443
Radiocalcium Absorption at Different Times of Day	{ Joseph Samachson Josephine Scheck Herta Spencer }	449
The Labile Folate of Milk	{ Jacobo Ghitis with the technical assistance of Carmen Candanosa }	452
Nutritional Requirements of Man, with Special Reference to Riboflavin	M. K. Horwitt	458
Letter to the Editor: Nutritional Status of People in Isolated Areas of Puerto Rico	D. S. McLaren	467
ASCN News: Presidential Address; Dr. Charles S. Davidson. Recipient of Second McCollum Award		469
Nutrition News: Report on Atlantic City Meetings		473

Contents of Volume 19

July

Dietary Appraisal. Problems in Processing Dietary Data	{ Juanita A. Eagles Marjorie Grant Whiting Robert E. Olson }	1
Assay of the Autohumoral Antibody that Neutralizes the Vitamin B ₁₂ Combining Site of Intrinsic Factor in Serum from Patients with Pernicious Anemia	{ H. J. Hansen O. N. Miller C. H. Tan }	10
A Riboflavin Assay Suitable for Clinical Use and Nutritional Surveys	{ Herman Baker Oscar Frank Susan Feingold Rosemary A. Gellene Carroll M. Leevy S. H. Hutner }	17
Folic Acid Deficiency Secondary to Iron Deficiency in Man. Remission with Iron Therapy and a Diet Low in Folic Acid.	{ H. Velez A. Restrepo J. J. Vitale E. E. Hellerstein }	27
Growth of Infants and Preschool Children in St. Christopher-Nevis-Anguilla, West Indies	{ M. T. Ashcroft I. C. Buchanan H. G. Lovell B. Welsh }	37
Effect of Interchanging Bread and Sucrose as Main Source of Carbohydrate in a Low Fat Diet on the Serum Cholesterol Levels of Healthy Volunteer Subjects	{ J. J. Groen M. Balogh E. Yaron A. M. Cohen }	46
Effect of Interchanging Bread and Sucrose as Main Source of Carbohydrate in a Low Fat Diet on the Glucose Tolerance Curve of Healthy Volunteer Subjects	{ A. M. Cohen Alisa Teitelbaum Miriam Balogh J. J. Groen }	59
Nutritional Anemias—WHO Research Program. Early Developments and Progress Report of Collaborative Studies	V. N. Patwardhan	63
Letter to the Editor: Factors Affecting Interpretation of Clinical Data		72
Nutrition News		73
Reviews of Recent Books		74

August

Total Body Water in Obesity	{ Kare Gundersen Grace Shen }	77
---------------------------------------	--	----

Contents

iii

Treatment of Hypertriglyceridemia. I. Total Caloric Restriction Followed by Refeeding a Low Carbohydrate, High Fat Diet in the Carbohydrate-Induced Type (Eight Cases). II. Low Fat Diet Plus Medium-Chain Triglycerides in the Fat-Induced Type (Two Cases)	{ P. K. Reissell P. A. Mandella T. M. W. Poon-King F. T. Hatch with the technical assistance of L. M. Hagopian }	84
Plasma Amino Acids in Full-Term Infants	{ Helen K. Berry Carolyn Scheel Leonard }	99
Quantitative Studies on the Urinary Excretion of Indoxyl Sulfate (Indican) in Man Following Administration of L-Tryptophan and Acetyl-L-Tryptophan	George T. Bryan	105
Urinary Excretion of Indoxyl Sulfate (Indican) by Human Subjects Ingesting a Semisynthetic Diet Containing Variable Quantities of L-Tryptophan	George T. Bryan	113
Effects of Bean Diets on Concentration of Carbon Dioxide in Flatus	{ F. R. Steggerda J. F. Dimmick }	120
Pica in Turkey. 1. The Incidence and Association with Anemia	{ Ayhan Okcuoğlu Ayten Arcasoy Virginia Minnich Yavuz Tarcon Suchre Cin Orhan Yörükoğlu Bahtiyar Demirağ Fevzi Renda }	125
Effect of a Low Iron Diet on Iron Absorption	{ Bryan Rush Manuel A. Figallo Elmer B. Brown }	132
Rapid Determination of Tocopherol in Macro- and Micro-quantities of Plasma. Results Obtained in Various Nutrition and Metabolic Studies	{ Sami A. Hashim Georges R. Schuttringer }	137
Reviews of Recent Books		146

September

Syndrome in Premature Infants Associated with Low Plasma Vitamin E Levels and High Polyunsaturated Fatty Acid Diet	{ Habiba Hassan Sami A. Hashim Theodore B. Van Itallie William H. Sebrell }	147
Obesity in Diabetes. Some Considerations on Treatment.	{ J. Trevor Silverstone Richard M. Buckle }	158
Dietary Care of the Patient with Chronic Oliguria	{ Mary C. Mitchell Edwin J. Smith }	163
Observations on the Origin of Liver Fat in Infantile Malnutrition	K. Fletcher	170
Serum Cholesterol Response to Changes in Dietary Lipids.	{ Ancel Keys R. Willis Parlin }	175

Vitamin A Deficiency in Kwashiorkor	{ Sheila M. Pereira Almas Begum Mary E. Dumm }	182
Folate and Vitamin B ₁₂ Metabolism in Weanling Rats Given a Maize Diet. 1. Folate and Vitamin B ₁₂ Concentrations in Liver and Serum	{ I. Spector J. Metz }	187
Influence of Different Types of Dietary Fat on the Fatty Acid Composition of Some Serum Lipid Fractions in Infants and Children	{ N. A. Pikaar J. Fernandes with the technical assistance of F. Schippers }	194
Serum Triglycerides and Nonesterified Fatty Acids in Kwashi- orkor	{ Kamala S. Jaya Rao P. S. Krishna Prasad }	205
Perspective on Vitamin E	David C. Herting	210

October

Protein Loss Into the Gastrointestinal Tract in Cirrhosis of the Liver	Frank L. Iber	219
Double-Blind Study of Phenethyldiguanide in Weight Control of Obese Nondiabetic Subjects	{ Martin S. Roginsky Jacqueline Barnett }	223
Dietary Nitrogen Utilization in Young Men Fed a Diet in Solid and Liquid Form	{ N. S. Scrimshaw V. R. Young J. P. Habicht B. Cholakos }	227
Effect of Cholesterol-Lowering Diet on Production of Adrenal Cortical Hormones in Man	{ Fred E. Abbo Paul D. Meyer }	232
Folate Synthesis by Intestinal Bacteria	{ Frederick A. Klipstein I. Michael Samloff }	237
Rapid Evaluation of Nutritional Level. A Community-Screen- ing Project	G. Ferro-Luzzi	247
Ethanol and Alimentary Lipemia	{ Alan C. Brewster Hal G. Lankford Milton G. Schwartz James F. Sullivan }	255
Megaloblastic Anemia in an Adult Vegan	John D. Hines	260
Nutritional Status of People in Isolated Areas of Puerto Rico. Survey of Barrio Naranjo, Moca, Puerto Rico	{ Nelson A. Fernández José C. Burgos Irvin C. Plough Lydia J. Roberts Conrado F. Asenjo }	269
Nutritional Problems as Part of the Total Economy	Herbert Pollack	285
Letter to the Editor: Pathogenesis of Fatty Liver—A Postulated Mechanism		291
Reviews of Recent Books		293

November

President's Statement. American Society for Clinical Nutrition	Robert E. Hodges	295
Effect of Magnesium on Calcium Metabolism in Man	{ Anne M. Briscoe Charles Ragan }	296
Antipyridoxine Effect of D-Penicillamine in Schizophrenic Men	{ Leo E. Hollister Francis F. Moore Fred Forrest J. L. Bennett }	307
Effects of Sleep Deprivation and Reversal of Diurnal Activity on Protein Metabolism of Young Men	{ N. S. Scrimshaw J. P. Habicht P. Pellet M. L. Piché B. Cholakos }	313
Fasting and Refeeding of Various Suboptimal Isocaloric Diets. Effects on Mineral and Nitrogen Balances in Obese Patients	{ John E. Jones Margaret J. Albrink Paul C. Davidson Edmund B. Flink }	320
Influence of Meal Composition on Serum Amino Nitrogen, Glucose and Nonesterified Fatty Acids	{ R. G. Nadeau E. S. Yearick }	329
Vitamin to Creatinine Ratios. Variability in Separate Voidings of Urine of Adolescents During a 24 Hour Period	{ Robert P. Clarke Lola DeG. Cosgrove Ellen H. Morse }	335
Folic Acid Conjugase in Normal Human Plasma and in the Plasma of Patients with Tropical Sprue	{ Rafael Santini Enrique Pérez-Santiago Leon Walker C. E. Butterworth, Jr. }	342
Glucose Tolerance Test. Variability in Pregnant and Non-pregnant Women	{ John B. O'Sullivan Clare M. Mahan }	345
Clinical Picture and Nitrogen Retention in Malnourished Children	{ J. E. Dutra de Oliveira Luiz Scatena Norberto de Oliveira Netto }	352
Dynamics of Diet Therapy	Jerry M. Rivers	357
Relationship Between Food Consumption and Mortality from Atherosclerotic Heart Disease in Europe	{ Alfredo Lopez-S Willard A. Krehl Robert E. Hodges Eleanor I. Good }	361
Letter to the Editor: The Consumption of Coffee and Tea in Canada and the United States.		370

December

Ascorbic Acid Metabolism in Man	{ E. M. Baker J. C. Saari B. M. Tolbert }	371
---	---	-----

Pyridoxine Deficiency and Tryptophan Metabolism in Chronic Alcoholics	<i>M. P. Walsh</i> <i>P. J. N. Howorth</i> <i>Vincent Marks</i>	379
Nutritional Studies in Cholera. Influence of Nutritional Susceptibility to Infection	<i>I. H. Rosenberg</i> <i>W. B. Greenough, III</i> <i>J. Lindenbaum</i> <i>R. S. Gorden, Jr.</i>	384
Serum Levels and Urinary Excretion of Amino Acids by Preadolescent Girls on Two Levels of Protein Intake	<i>Marian E. Moore</i> <i>S. J. Ritchey</i>	390
Metabolic Patterns in Preadolescent Children. Thiamine Utilization in Relation to Nitrogen Intake	<i>Ruth E. Boyden</i> <i>S. E. Erikson</i>	398
Effects of Several Levels of Dietary Protein and Amino Acids on Nitrogen Balance of Preadolescent Girls	<i>R. P. Abernathy</i> <i>Mary Speirs</i> <i>R. W. Engel</i> <i>Marian E. Moore</i>	407
Zinc Levels and Blood Enzyme Activities in Egyptian Male Subjects with Retarded Growth and Sexual Development	<i>J. D. Coble</i> <i>R. VanReen</i> <i>A. R. Schulert</i> <i>R. P. Koshakji</i> <i>Z. Farid</i> <i>J. T. Davis</i>	415
A Longitudinal Study of Gross Body Composition and Body Conformation and Their Association with Food and Activity in a Teen-Age Population. Anthropometric Evaluation of Body Build	<i>Mary C. Hampton</i> <i>Ruth L. Huenemann</i> <i>Leona R. Shapiro</i> <i>Barbara W. Mitchell</i> <i>Albert R. Behnke</i>	422
Relation Between Rate of Nail Growth in Pregnant Women and Estimated Previous General Growth Rate	<i>David Hewitt</i> <i>Robert W. Hillman</i>	436
Nutrition Research for the Future	<i>William J. Darby</i>	440
